

Canadian Coast Guard Vessel Maintenance Management Review 2008-2009	
Commitment	Results Achieved/Status
Begin to address the findings of the Vessel Maintenance Management Review. The initial focus is on:	
Clarifying roles, responsibilities, and accountability	Concept and Project Plan have been approved. Initial draft complete.
Creating an accessible bank of current maintenance policies and procedures	Web page has been created; existing ITS HQ publications will be posted there.
Assessing internal options for increasing the number of marine engineers both on vessels and on-shore	Assessment for additional Marine Engineers onboard vessels and enhanced engineering shore support is underway.
Beginning to develop a program management framework for maintenance activities	Vessel Maintenance Management Report Action Plan is approved, Report tabled at the Standing Committee on Public Accounts. Have begun execution of Action plan. A new position, Director of Priority Projects, has been created to lead and coordinate the corrective actions necessitated by the report.
Develop a business case on the effectiveness and efficiency of CCG paint facilities.	Contract has been signed for phase one – Options Assessment.

### 4.3 Eligible Maintenance Contractors

Eligible contractors include Canadian companies in the shipbuilding industry that have the requisite legal, technical and financial competence. This means that International Shipping, with the right shipyard facilities, could bid on these lucrative government contracts to maintain the Canadian Coast Guard fleet.

### 4.4 Canadian Navy – Pacific Fleet

The Canadian Navy operates a base in Esquimalt on Vancouver Island that has a fleet in constant need of repairs, maintenance and repainting. The following fleet offers potential clients for International Shipping:

HALIFAX - class Patrol Frigate (CPF)			
Hull Number	Name	Commissioned	Builder
331	HMCS Vancouver	23 Aug 1993	Saint John Shipbuilding Ltd.
334	HMCS Regina	30 Sept 1994	Lauzon, Quebec
335	HMCS Calgary	12 May 1995	Lauzon, Quebec
338	HMCS Winnipeg	23 June 1995	Saint John Shipbuilding Ltd.
